

MILESTONE 24

STRONG KAZAKHSTAN – STRONG REGIONS

Kazakhstan possesses vast natural and geographic potential. Its expansive geographic territory means the country is the world's ninth largest in terms of land mass. The whole of the European Union could fit within Kazakhstan's borders.

Kazakhstan is divided into 14 regions: Akmoła, Almaty, Aktobe, East-Kazakhstan, Atyrau, Zhambyl, West-Kazakhstan, Karagandy, Kostanay, Kyzylorda, Mangystau, Pavlodar, North-Kazakhstan and South-Kazakhstan. The two most prominent and significant cities are Astana and Almaty.

Regions of the Republic of Kazakhstan

Clockwise from below left: a locomotive assembled in Astana; EC 145 helicopters assembled by Eurocopter Kazakhstan Engineering LLP; rocket launched from the Baikonur Cosmodrome; harvesting in the Petropavl region; torque turn ball valves manufactured in a plant of Bollinger Armaturen Kazakhstan Ltd in Karagandy; cars assembled by Saryarka Autoprom LLP in Kostanay.
