

Final note

“I hope that visitors to the UK Pavilion will experience a time of peace and reflection that in itself will have a big impact. I wanted to have a different take on the theme of energy, to remind ourselves that our lives are all about the sun, which dictates the tides, the wind, the moon, gravity. And from that point of our shared energy, past and future, to then zoom in on the individual achievements of the UK.”

Asif Khan
